

ADVANCED FACILITATED INDIVIDUAL EDUCATION PLAN [FIEP] WORKSHOP

Many participants in Key2Ed's IEP Facilitation Workshop ask for additional training to increase their skill level when facilitating more difficult or complex meetings. They also regularly want to discuss particular situations that they have experienced and get feedback/input on how to best handle them.

Key2Ed designed the one day Advanced Facilitated IEP Workshop to deliver just that and help *previous* participants strengthen and broaden their facilitation skills.
